

All My Money Training Schedule, 2011-2012

All My Money is a hands-on, train-the-trainer curriculum, designed for staff and volunteers in community agencies and social service organizations who work directly with limited-resource clientele. The lessons cover all the basics of money management and consumer skills.

All My Money training sessions will be held at regional locations throughout Illinois between September 2011 and summer 2012. See the schedule below for links to more information or to register.

Partial scholarships are available to non-profit organizations on a first-come, first served basis for each training session listed below. With the scholarships, staff from non-profits will pay just \$89 for the two days of training instead of \$199.

For more information about the All My Money program, visit our [website](#). To receive notices about future trainings, or to inquire about on-site training for your own organization (Illinois locations only), [contact us](#).
