

Bhashkar Mazumder
Economist

Bhashkar Mazumder is a senior economist in the economic research department and executive director of the Chicago Census Research Data Center. As a member of the microeconomic team, Mazumder conducts research in labor economics, education and health economics with a focus on issues related to intergenerational economic mobility. Mazumder's research has been published in the *American Economic Review Papers and Proceedings* and the *Review of Economics and Statistics*. His research has also been featured in the *Chicago Fed Letter* and *Economic Perspectives*. Mazumder has also served as a co-editor for a symposium on intergenerational mobility at the journal *Industrial Relations*.

In addition to his research activities, Mazumder also oversees the operations of a research center enabling access to Census micro data on behalf of a consortium of five institutions including Argonne National Labs, the Federal Reserve Bank of Chicago, Northwestern University, the University of Chicago and the University of Illinois at Chicago.

Mazumder previously worked at the Conference Board in New York and oversaw the transfer of the leading economic indicators from the Commerce Department to the Conference Board.

Mazumder received a B.A. in political science from New York University, an M.A. in economics from New York University, and a Ph.D. in economics from the University of California at Berkeley.
